MEASUREMENT DATA MANAGEMENT AND ANALYSIS SOFTWARE CODE 7317

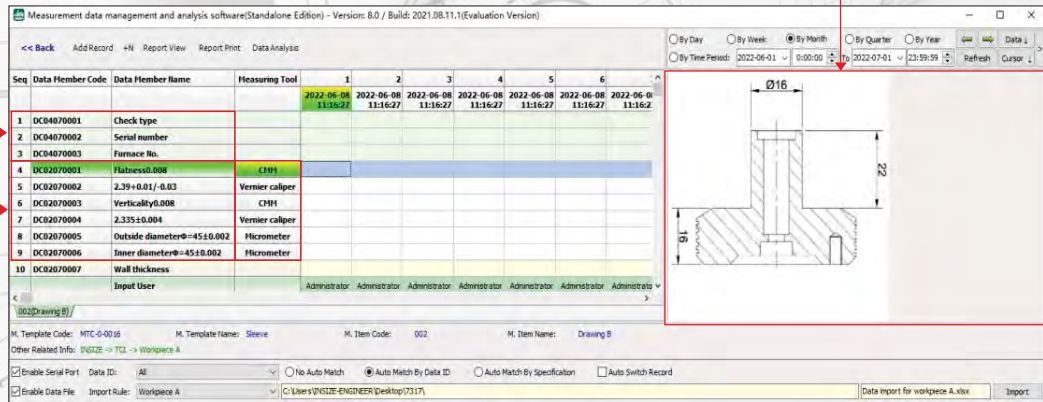

Make inspection plan

- Define the dimensions, tolerances, control range and other parameters of workpieces

define the drawing of workpieces

- define association items of data
- define the measured dimension and tolerance

Data acquisition

manual input

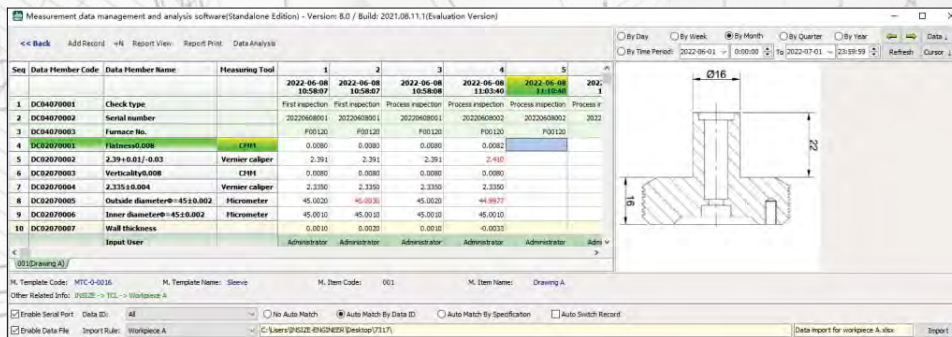

data transmission

collected from files

screen capture

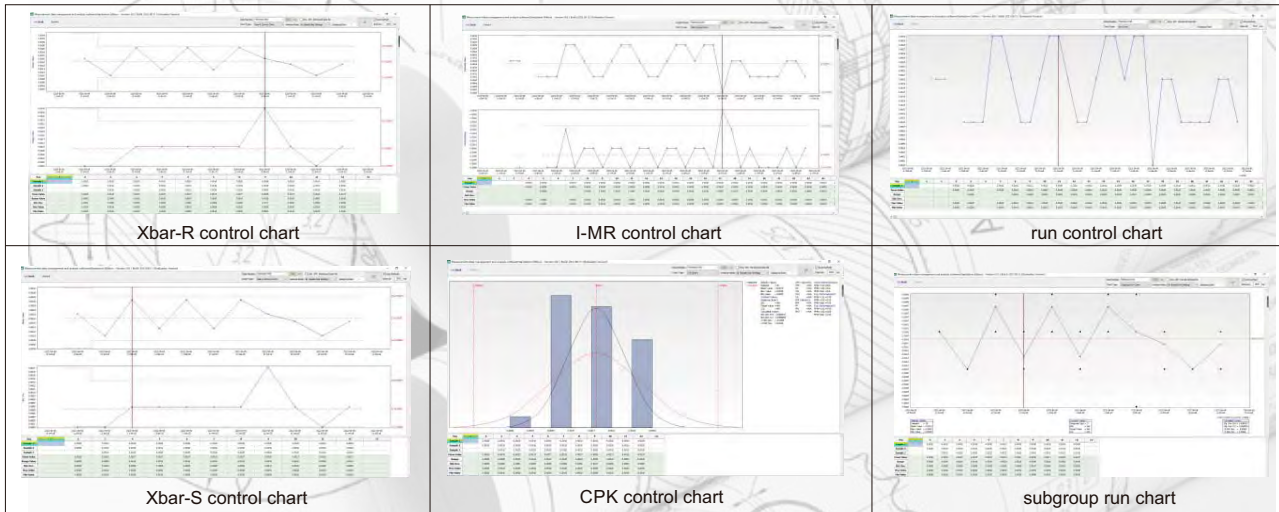

measurement interface

To be continued

Continued from previous page

SPC

- Provide variety of quality analysis control charts

Report

The figure illustrates the report generation workflow:

- report template:** A screenshot of a software interface showing a 'Record of product inspection' form with various input fields.
- generate report:** A screenshot of the resulting report, which includes a table of inspection data and a signature field.

The signature field contains the name 'Tom' and a note: "support exporting electronic signature".

Management of inspection plan

The figure shows three different views of inspection plan management:

- management by customers:** A table listing inspection items with columns for Seq, Manag., List Item Code, List Item Name, Creation User, and Creation Time.
- management by drawings:** A tree view showing a hierarchy of drawings under 'INSIZE.COM', including 'A0103', 'A0104', and 'B2467'.
- management by departments:** A tree view showing a hierarchy of production areas under 'INSIZE.CN', including 'Production area 1', 'Production area 2', and 'Production area 3'.

1 WIRELESS DATA TRANSMISSION SYSTEM

- Through wireless transmission, the measurement data can be transmitted to computers or mobile phones
- Wireless zigbee protocol, conforming to IEEE802, 2.4GHz band
- Transmission distance is 15 meter (under the condition of no obstruction and no electromagnetic interference)

Transmitter

- Connecting to digital measuring tools such as calipers, micrometers and indicators
- CR2032 battery

Code	Description	Transmitter	Connecting with measuring tool	Transmit data
7315-21	transmitter for digital calipers			<ul style="list-style-type: none"> Press the transmit button on the plug of cable, can also press the transmit button of the transmitter Data is transmitted once, the signal light of the transmitter flashes once
7315-22	transmitter for large digital calipers			<ul style="list-style-type: none"> Press the transmit button of the transmitter Data is transmitted once, the signal light of the transmitter flashes once

Receiver (keyboard signal)

- For computers and mobile phones
- Recognized as HID keyboard device, the transmitted data is recognized by computers or mobile phones as keyboard input data and press enter, such as 12.34 √. No need to install drivers and softwares
- Data can be transmitted to excel, word, txt etc.
- For any softwares which can receive keyboard signal

Code	Product	Description	Remark
7315-3		single channel receiver	connected with 1 transmitter only

To be continued

Continued from previous page

Code	Product	Description	Remark
7315-6	 USB port	multichannel receiver	connected with 6 transmitters, each channel has status indicator
7315-7	 type-C port		
7315-8	 micro USB port		
7315-9	 lightning port		

Receiver (text format, virtual com port)

- For computers with windows system
- Text format virtual com port, converted to keyboard format with supplied software
- Supplied with Excel directional input software
- Measurement data can be transmitted to excel, word, txt etc. and any software which receives keyboard signal

Code	Product	Description	Remark
7315-2	 USB port antenna	multichannel receiver	connected with maximum 16 transmitters, each of them has unique identification code

Excel directional input software

- Supplied with 7315-2 receiver
- The measurement data of multiple measuring tools can be transmitted to the designated area of excel, which facilitates data management and improves efficiency

Excel directional input software (included in 7315-2), application example 1

Excel directional input software (included in 7315-2), application example 2

Set the display area of caliper at B4-B9, the readings of caliper are displayed at B4, B5...B9. Set the display area of micrometer at C4-C9, the readings of micrometer are displayed at C4, C5... C9. Set the display area of height gage at D4-D9, the readings of height gage are displayed at D4, D5... D9.
